Index

February 1965 to December 1965

Editor's Note. In order to simplify the process of locating materials published in PASTORAL PSYCHOLOGY, the Annual Index will appear in each future December issue, and will contain a complete listing of materials from January through December, instead of February through January, as we have done in the past. (Because of the fact that the first volume of the journal began in February, the index was formerly based on our publication year, rather than on the calendar year.) The current index contains the materials from February through December, 1965. The January, 1966 materials will accordingly be included in our December, 1966 index.

A Binder

for your copies of

pastoral PSYCHOLOGY

Because of a number of requests from readers, we have arranged for the manufacture of special binders for your copies of PASTORAL PSYCHOLOGY.

Each binder holds a full year's issues. The special wire holders are easily inserted and hooked into the end clamps.

This is the kind of binder used in many libraries. It is sturdily made of the highest quality materials, and is usually sold at comparably high prices. But we are making it available to our subscribers at cost, in place of the more expensive and less practical bound volumes "of the past."

Just send $3 to PASTORAL PSYCHOLOGY, ***Manhasset, L. I., New York 11030, and your binder will be shipped to you, all charges prepaid, by return mail.***
